2014-2017

PROFILE

Hello, I am Kimleang Nao. I am a skilled and detail-oriented Web Developer with over three years of experience creating dynamic websites. Proficient in HTML, CSS, JavaScript, and React. Adept at collaborating with cross-functional teams. Strong problem-solving abilities and a passion for staying current with industry trends and technologies.

EXPERIENCE

○ E-commerce Website

E-commerce platform focusing on many different brands of shoes. The website offer users multiple tools to customizing their search, ensuring they find the perfect fit for their unique style.

What I learn from this project

- Sorting and Filtering products to display
- State management
- Organize components

○ Pomodoro Website

The website to implements the Pomodoro Technique for effective time management, emphasizing simplicity. It offers users two input fields for setting time intervals, supported by start and stop buttons. Also, users can opt to include a break.

What I learn from this project

- Effectively use React hooks
- Use media query for responsive web design
- Handle user input

○ Message Application

This is a message web page. This app use MERN stack for both back-end and front-end. The website has a few simple features, including search, add as friend, confirm friend requests, and messaging.

What I learn from this project

- use MongoDB for database, Nodejs + Expressjs for backend, and React for front end pages
- Implementing CRUD and use JWT for token
